SUMMARY

Data and Business Analyst skilled in Python, SQL, Excel, Power BI, and Tableau. Proficient in data analysis, visualization, reporting, and dashboard development. Pursuing an MCA in Artificial Intelligence and Machine Learning after completing a BCA in Computer Science/Information Technology, with a strong interest in delivering data-driven business insights.

EDUCATION

Master of Computer Applications (MCA) - Artificial Intelligence & Machine Learning	
Amity University	Noida
Bachelor of Computer Applications (BCA) - Computer Science/Information Technology	Jun 2025
Sirifort Institute Of Management Studies (GGSIPU)	Delhi
Senior Secondary (CBSE)	Mar 2022
Shaheed Rajpal DAV Public School	Delhi
Secondary (CBSE)	Mar 2020
Shaheed Rajpal DAV Public School	Delhi

SKILLS

Programming Languages: Python, HTML, CSS

Database: MySQL

Analytical Tools: Microsoft Excel, Microsoft Power BI, Tableau

Testing Skills: Manual Testing, Functional Testing, UI Testing, System Testing, Usability Testing

PROJECTS

- Credit Card Fraud Detection:** Developed a machine learning model using Python to detect fraudulent transactions through data preprocessing, feature engineering, and predictive modeling.
- Cryptocurrency Market Analyzer:** Built a cryptocurrency market analyzer to monitor real-time prices, visualize historical trends, and generate data-driven insights through interactive dashboards.
- Sentiment Analysis:** Developed an NLP-based sentiment analysis model using Python to preprocess text, classify customer sentiment, and extract actionable insights from reviews.
- Recommendation System:** Developed a recommendation system using Python and machine learning to analyze user preferences, generate personalized recommendations, and enhance user experience.
- E-commerce Web Application:** Contributed to a team-based e-commerce web application by designing login and registration pages, performing manual testing, managing project databases, and improving application functionality.

WORK EXPERIENCE

Incubation Internship Training Program (DATA ANALYST)	Jun 2025 - Dec 2025
PySpiders	Delhi
Worked with Python, SQL, Excel, Power BI, and Tableau to collect, clean, analyze, and visualize data from multiple sources. Developed interactive dashboards and reports to monitor key performance indicators and support business decision-making. Performed data validation, transformation, and exploratory data analysis to identify trends and generate actionable insights. Collaborated on reporting initiatives to improve data accuracy, operational efficiency, and data-driven business processes.	

Summer Training Internship (TESTER)	Jul 2024 - Nov 2024
Sirifort Institute of Management Studies (GGSIPU)	Delhi
Contributed to a team-based e-commerce web application by designing, executing, and documenting test cases. Performed Manual, Functional, UI, System, and Usability Testing to evaluate application functionality, user interface, and overall user experience. Designed login and registration pages using HTML and CSS, managed project databases and test data, identified and documented defects, and collaborated with team members to improve application quality, functionality, and performance.
